

## INDIAN SUMMER in TRITON Restaurant (3.-12. October 2008)

**Experience unrepeatable atmosphere of stalactite cave in the heart of Prague!**

Indian summer is the last hint of warm days before autumn sets in. Perhaps for this reason it has a slightly bitter taste of something we like but know that will end soon. The leaves on trees are gradually changing colour into brilliant colours, the days are still warm, but are quickly getting shorter and shorter and fruits are being harvested, which are a natural part of our cuisine – autumn fruits, potatoes, nuts, mushrooms and chestnuts. These very ingredients are often a part of our daily menu because they taste best fresh. The same applies to our TRITON Restaurant. We have prepared a menu for you, compiled from the gifts of Czech orchards and forests.

**Come and enjoy the taste of summer's farewell with us!  
Daily from 12.00 to 24.00 with live piano music.**
